1. The 10-17-03 amendment has been entered.
2. The following minor oversights should be corrected.

On page 4 line 14, 105 is the channel, not the device.

The 3-3-03 drawing correction labelling figures 1 and 2 as prior art is approved.

On page 12 line 8, "more" should be "less".

On page 19 lines 7,10,15 and 19, no wick 302 is seen in figure 9.

3. The remaining claims 1-5,7,9-35 and 42-46 are rejected under 102 and 103 for the same reasons given in the last action in paragraphs 3-7.

4. Claim 1 was amended by adding "wherein---allows" in place of "to allow".

Applicant's arguments were carefully considered but not persuasive of patentability.

The language change merely substitutes one functional statement for another. This function is not ignored by the examiner, but such is subject to broad interpretation. Such capability is present in the references, even if they do not ultimately positively perform such function. What structure is provided by "allows installation and removal"? The claim language is broader than argued and the references are still believed to be appropriate.
